Investment NSW Knowledge Hubs

Internal, external or other

Communities of Practice

SOVERNMENT

Purpose

The Knowledge Hubs Program established industry-led collaborative partnerships centred around key NSW industry sectors. These partnerships bring together businesses, research organisations and industry associations, to share information and direct research through collaborative projects.

Knowledge Hubs are:

- assisting industries to develop a shared vision and strategy
- improving industry productivity and competitiveness
- championing projects and research with broad industry benefits
- · promoting sector-wide market opportunities
- facilitating collaboration and knowledge-sharing
- providing industry with a united voice and a conduit to government
- creating platforms for sharing world-leading knowledge and influencing public research
